DIRECTOR OF DIGITAL MARKETING AND ECOMMERCE (Promoted)

Jonathan Green Inc | Remote | 2022 - 2025

- Made the case to the president to take control of the brand on Amazon, then took over Brand Registry, reclaimed listings from third-party sellers, and rebuilt A+ content and the brand store, growing sales from $5.4M to $13.3M, driving $2.1M in ad-attributed sales at 10.6x blended ROAS, and tripling repeat orders to 29.8K a year.

- Built the business case to replace the ecommerce platform after two years of declining online sales and secured the president's approval, then led the 200+ SKU redesign and SEO migration. DIGITAL MARKETING AND WEBSITE MANAGER

Jonathan Green Inc | Remote | 2019 - 2022

- Led the brand's go-to-market launch into California, a market with almost no awareness: adapted content and search to regional buying behavior, partnered with local influencers, geo-targeted paid social near retail locations, and optimized PDPs for regional terms. Ranked #4 organically for "best grass seed for Southern California"; California sessions rose 13% and new users 17%.
- Ran local co-op campaigns with Ace Hardware and independent garden centers to drive in-store demand. One Chicagoland program delivered 1.3M impressions and 1,481 attributed store visits, and participating retailers grew sales 20.6% year over year.
